

# Spring Term 2026

## PE

From this term, our PE is on a **Wednesday**. Please come to school dressed in your full kit: black jogging bottoms and hoody top with a house colour t-shirt. Make sure that your water bottle is brought in and full especially on PE days.

## Reading

Reading books will continue to be handed out on **Wednesdays** and need to be returned **Mondays**. Please log your child's reading in their reading record and read at least three times per week.

Year 2 will visit the library every other week. Your child will be able to bring a new book home provided they have returned their previous one.

## Personal belongings

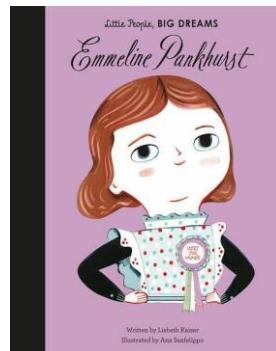

Please ensure children do not bring in personal belongings.

Please name label absolutely everything your child brings to school including their lunch box (if they bring one).

Coats and jumpers are regularly taken on and off and will usually be returned if clearly named.

## Water Bottles

Children are encouraged to bring water bottles to school as it is important that we are hydrated so we can work and be focused fully. Children are not to bring water bottles with spray functions on them.

## Year 2 – Emmeline Pankhurst

Happy New Year everyone, we hope you are well rested and ready for the Spring Term! We would like to thank you for all the Christmas wishes, cards and gifts they were very much appreciated.

Miss Jacobs

## Careers Week

Our careers week is **W/B 9.2.26**. We are looking for volunteers to come to school and share with the children all about their job.  
If you are interested in volunteering, please contact the school office –[office@cvps.pamat.org](mailto:office@cvps.pamat.org)

## Spring Curriculum

Throughout this term, Year 2 will be exploring some of the countries, animals, and plants that we find on each continent! Year 2 will learn how to use maps to find different places in the world. This will help them to understand where in the world they are compared to the places and people we learn about. You could continue this at home by showing your children where their houses are on a map. We will also be exploring what it is like to live at the coast in preparation for our trip to the beach in Summer!

As part of our history topic, we will be focusing on the Wright brothers, who created the world's first successful motor-operated airplane! We will also investigate the impact this has had on history for example the use of modern planes to go on holiday or delivering packages across the world. This links to
